

## **Lesson 3**

### **THEORY OF EVOLUTION**

**Bible Portion:**

Gen. 1, 2.

**Memory Verse:** Gen. 1:27-28.

**Theme:**

To know that all living things including man did not come into existence by evolution.

**Lesson:**

Introduction – History of the theory of evolution – Summary of the theory of Evolution – The arguments of the Evolutionists – similarity in anatomy – Gradation in classification – Embryology – vesigal organs – Mutation – Transmission of acquired charecteristics – Mendelism – Paleontological evidences – The origin of life

**Questions:**

1. Who was the originator of the theory of Evolution? Give the name of the book that was published on this theory.
2. Give a summary of the theory of evolution.
3. Prove that similarity in the anatomy of creatures does not support evolution.
4. What kind of order among creatures is taken as support for evolution? How much logical is the argument?
5. How is the development of the human embryo related to evolution?
6. What are vestigial organs? Examine whether they support evolution?
7. What is mutation? Can evolution be proved by mutation?
8. What are acquired characteristics? Do they get transmitted to future generations?
9. Prove that Mendelism does not support Evolution.
10. Examine whether paleontological evidences support evolution.
11. What does the evolutionists say about the origin of life?
